

KYHMIS Quarterly Webinar

January 27, 2021

Q1: We do not send in the CAPER for our ESG-CV project, we just run it for our use?

A1: That's correct. We run the reports and submit to HUD, however you are still responsible for checking the data no later than the 15th of the month for those ESG CV projects and cleaning any data up before that date.

Q2: Is there any scenario that you just us KY-500, not the BOS?

A2: NO, we are the BOS Balance of state. The KY-500 is our COC code for HMIS purposes.

Q3: What is Tish's email?

A3: tishshupe@cccs1975.org

Q4: Regarding the approx homelessness start date, is this the first time ever homeless or start date of homelessness this time? I know previously first time homeless was recorded in another area.

A4: It is the start date for the current episode.

Q5: Can we use the same ROI?

A5: You will need a separate ROI for EACH project within HMIS.
